# 3D FORMED PANEL COLLECTION

CURTAIN..... 04

COLUMN ..... 06

Commercial interiors are scaled to new levels of comfort, class and sophistication with floor-to-ceiling 3D formed panel solutions, Column and Curtain. At 2.8m high these panels can be installed without a floor-to-ceiling join, and contains over 50% post-consumer recycled PET. Panel joins and edge trims can be purchased separately, to suit installation preferences.

Column is inspired by the undulating symmetrical rhythms of the classical architectural innovation. Due to the design of wave-like peaks and troughs, coupled with a depth of approximately 70mm and a combination of non-woven raw materials, significant airgaps are captured in a direct fix wall application, creating a distinct sound absorption zone.

Curtain, the asymmetrical cousin to Column, takes on a more free-form fluid appearance. Designed with an airgap in direct fix wall applications, it displays as a contemporary acoustic macro 'curtain effect' where the non-woven materials appear to ebb and flow across a three-dimensional form.

Both designs create a unique visual delight while delivering strong acoustic performance. As the boundaries of standard interior surfaces are continually pushed, Curtain and Column are an elegant solution embracing this concept in their aesthetic, acoustic and sustainability performance.

COLUMN in colour 495

The embossed acoustic panel collection represents the latest innovation from Woven Image. Made using recycled plastic, this design-led collection embraces the trend towards tactile surfaces and three-dimensional textures, interweaving cutting-edge design with sustainability and commercial performance.

Available in four unique designs; Zen, Ion, Gem and Pico, which have been specially designed to provide a floor-to-ceiling acoustic solution for commercial office interiors and pattern matches for continuous wall and double-height installations.

The collection has won numerous international design awards including; The Designer Award for Innovation in Material Product Design, the Dezeen Award for Workplace Design, the FX Design Award for Best Surface, the Architizer Award for A+ Products and an INDE Award.

The uniqueness of the design was observed instantly by the Dezeen Awards judges who said that “in this instance, there was an attempt to define the space in sculptural terms and also give the product tactility”. The Dezeen Awards received more than 4,300 entries, from 85 countries across 5 continents.

EMBOSSSED PANEL COLLECTION

ION

ION in colour 573

Ion's design is more organic, with multiple triangles that enjoin to make an intricate raised profile. The angled facets that occur from the geometric pattern reference the shapes of origami and folded paper.

COLOURS	Available in 20 colours from the Mura range - <b>see page 1</b>
PANEL DIMENSIONS	2800mm (+/-3mm) x 1130mm (+/-3mm)   110.24" (+/-0.12") x 44.49" (+/-0.12")
